

**EDCI 786 Topics: Science Research in the Classroom  
Activity**

**Groundwater Activity White Board Discussion by \_\_\_\_\_**

**Block \_\_\_\_\_ Date \_\_\_\_\_**

1. **Compare** the groundwater models and list the things they **all** have in common. (ways that they are alike or the same)
  
2. **Contrast** the ground water models and list the observable differences.

**Group presentations** Listen to the presentations and note any questions you have about the group's work.

**Homework: Write an explanation of how and why groundwater moves. Include all of the eleven vocabulary words in this explanation. Limit this explanation to one page.**
