2020 - 2021 Graduates	100	-	-	-	-	-	-	-	-	-	*25 (25.0%)

This chart shows the number of K-State graduates from each year who were licensed in the state of Kansas and held teaching, specialist or administrative positions in a Kansas school during the specified time period. They do not necessarily represent the same people each year. Numbers change as new people enter or leave the school system and move into or out of the state.

* These students held teaching, specialist or administrative positions in the spring semester after graduating in December.
